HINCKLEY, Minn., July 17.—The woods and meadows from Hinckley to Brown Hill, ten miles away, are aflame. Every precaution is being taken to keep the flames out of Hinckley. At Mission Creek the John Martin Lumber company's large plant is threatened. The loss to the farmers is ready great.

## TAX LEVY FOR 1894 FOOTS UP \$76,800

### NEW HOSPITAL ORDINANCE UP FOR DEBATE.

Gas Lamps No Longer Necessary the Aldermen Declare—Dr. O. P. Robinson Elected Health Officer After Much Delay—Shade Trees to Be Trimmed Closer.

The tax levy for current expenses for the coming municipal year adopted by the council last night was as follows:

Paupers' debt and interest fund.....	\$13,500
School fund.....	18,000
Public library fund.....	3,000
Fire department fund.....	7,000
Gas fund.....	7,500
Bridge fund.....	1,000
General fund.....	10,000
Judgment fund.....	5,400
First ward fund.....	2,500
Second ward fund.....	1,600
Third ward fund.....	3,000
Fourth ward fund.....	2,500
Fifth ward fund.....	1,800

The total sum amounts to \$76,800.

Last year the total levy was \$78,019.96. Very little other business of general importance was considered. A saloon license was granted Jacob Snyder at the Highland house. The assessment rolls were approved; the June report of the city treasurer was referred to the finance committee; the use of the council chamber was granted the Hanson Furniture Co., holding stockholder's meeting July 17, and an invitation for the council to attend the picnic of Division No. 3, A. O. H. was accepted.

On recommendation of the finance committee a large number of bills were audited, and the bill of D. Ryan for lively furnished on order of John Collins in 1891, was placed on file.

Hospital Ordinance Proposed.

Alderman Winslow presented an ordinance amending the city charter so that the council have the authority to establish a hospital, the object being to give the council authority to take such action in relation to aiding the city hospital they might deem proper. The ordinance was referred to a committee consisting of Aldermen Child, Smith, Heddies, Kothman and Winslow.

Two ballots were taken for health officer, the first ballot resulting in O. P. Robinson receiving five votes; James Gibson two and W. H. Judd two. The second ballot gave Robinson six; Gibson one; Judd two, and Dr. Robinson was declared elected.

The time for completing the paving of River and Main street was extended to August 10.

On motion of Alderman Rich, the purchasing committee was directed to purchase paint for painting Fourth avenue bridge.

On motion of Alderman Child, the gas committee was directed to request property owners to trim their shade trees so that the electric lights might be of better service.

No More Need of Gas Lamps.

Alderman Smith of the gas committee, stated that Captain Norcross was now ready to light the city with electric lights, and on his motion, the gas street lamps were ordered discontinued from this date.

Orders were adopted as follows: By Alderman Child—For the purchase of fire department supplies, and also requiring the purchasing committee to report in writing at each meeting, their purchases of articles for the city. By Alderman Smith—For sidewalk on Franklin street in front of lots 74 and 75, Smith & Bailey's addition. Directing the city marshal to enforce the tree trimming ordinance.

By Alderman Winslow—Authorizing A. E. Baun to move a building from the Fourth ward to Forest Park boulevard. For the appointment of a committee of three to build an election booth in the Second precinct of the Third ward—Alderman Winslow, Rich and Heddies were appointed.

By Alderman Baines—For the removal of electric light at corner of Franklin and West Bluff—referred to gas committee. By Alderman Child—Granting Mary King permission to construct a sewer in East Milwaukee street.

The official reports show that no baking powder received an award over the Royal at the Chicago World's Fair.

The judge of awards on baking powder, Dr. H. W. Wiley, writes that the claim of another company to having received the highest award is false; that no such award was given to it.

The Royal Baking Powder is the purest and strongest baking powder made, and has received the highest award at every fair, whenever exhibited in competition with others.

### WANT EMERY FOR SUPERINTENDENT

Ex-President of the State Normal School Is Urged to Make the Race.

EDITOR GAZETTE: Ex-president J. I. Emery of the River Falls State Normal School is very favorably mentioned by the press of the state as a candidate for nomination for state superintendent on the republican ticket. Prof. Emery's career as a Wisconsin educator extends through a period of about thirty years and he is well and favorably known throughout the state. He has been a common school teacher, county superintendent of schools for five years in Dane and Wood counties; nearly five years principal of the Grand Rapids union graded school; sixteen years principal of the Fort Atkinson high school; and four years principal of the River Falls state normal school. In all of these positions he has been crowned with a high order of success. He has at various times been appointed as visitor to state normal schools; was for three years one of the board of examiners for teachers' state certificates and has served as president of the Wisconsin Teachers' association. A year ago he retired temporarily to his large farm in Dane county, in the hope that he might thus restore his impaired health. He is now invigorated in health and is being urged by many friends as eminently and especially qualified for the high position of state superintendent.

### ST. PAUL EMPLOYEES AT WORK

All the Clerks Given Their Old Positions Again This Morning.

All the freight clerks and other employees laid off on the C. M. & St. P. because of the strike were restored today. The strike is now looked upon as a matter of the past by railroad men in Milwaukee. Assistant General Superintendent McKenna is firmly convinced of this, and this morning packed his grip and went off into the country for a vacation. General Manager Whitcomb of the Central lines, who delayed taking up his summer residence at his cottage at Lakeside, this afternoon gave up city life and will spend the warm months at Lakeside.

In England they have what is called a "damp detector," a silver trinket, not unlike a compass in appearance. At the back are small holes in silver through which the damp passes and moves the needle until it points to the word "damp." By the aid of this contrivance unaided sheets can be detected.

## DROUTH MUCH FELT OVER THE COUNTY

### OATS AND BARLEY HAVE SUFFERED GREATLY.

Corn is Shriveling and Early Set Potatoes Will Be a Small Crop—Tent Meetings in Magnolia Prove a Success—Base Ball By Various County Teams.

MILTON, July 17.—The drouth has done much damage here. Barley and oats have suffered, early potatoes and tobacco are damaged and even corn needs rain. The Blue Diamonds expected to have a game with an Edgerton club Friday, but the visitors failed to put in an appearance. A scrub nine played the Diamonds and were beaten by a score of 13 to 9. At the close of the seventh inning the game was a tie. The "scrubs" feel pretty well over the result. M. D. L. Fuller of Crystal Falls, Mich., was here Friday to see his mother. The Chinese social at the Seventh Day Baptist church Thursday evening was quite successful. It had the merit of novelty and the tea served was good. Mrs. C. B. Smith and daughters and G. E. Boss and family are in camp at Clear Lake. Mrs. J. B. Estee, of Milwaukee, is visiting her father, Dr. Henry Estee. W. S. Jones is working a few hands in the Soverhill warehouse most of the time. They are buying crops put up by the farmers and rehandle them. Will Waterman fell from a load of hay and broke one rib and injured another. He is doing as well as could be expected. Mrs. W. D. Thomas lauded a six pound pickerel at Clear Lake Friday. Miss Browning of Atlanta, Ga., who has been visiting her sister, Mrs. Pickett, for some weeks, returned to her southern home Monday. Miss Garghill, who has been the guest of Miss Dunn for the past month, returned to Evanston, this week. Colon Rice, who has a truck farm in the suburbs of Rockford, has been visiting relatives here. The Seventh-day Baptist's Sabbath school held their annual picnic at Clear Lake today.

Mrs. Wellington Clarke and Martin Clarke are enjoying a visit with Walworth friends. Misses Hudson and Ames, of Madison, were the guests of Mrs. Frank Blaisdell this week. Miss Nellie Brown, who is being treated by Dr. Highland, of Stoughton, is regaining her health. Rev. Dr. Trevartha occupied the pulpit at the M. E. church on last Sunday.

Mrs. H. S. Fuller, whose dangerous illness has been noted in this column, died Sunday noon. Deceased had been a resident of Milton prior to going to Minnesota, for many years, coming to Wisconsin in 1855. The funeral took place Tuesday morning at the Seventh-Day Baptist church, Rev. E. M. Dunn officiating.

### LARGE MAGNOLIA TENT MEETINGS.

Sermons By Different Pastors Each Night—Drouth Causes Loss.

MAGNOLIA, July 17.—The tent meetings are under way on the Methodist church grounds. Rev. Stevens of Evansville, preached a very interesting sermon last Monday afternoon. There will be good speaking from different pastors each night this week. Some of our men are still hunting for pearls in Sugar river. Howard & Dettzer have purchased a well drill and are now ready to do work for any who desire their services. Frank Dann of Footville, attended services at the tent meetings Sunday morning.

Mrs. George Bahr is visiting in Monticello. The family of J. R. Whitney are enjoying a reunion, the children all being at home. Crops are suffering severely from the drouth here. Walter Graves of Chicago, is spending a few weeks with the family of Wilson Brown.

### BAND TOURNAMENT AT THE FAIR.

Handsome Cash Prizes For the Best Organizations in the Field.

The coming band contest at the Rock county fair is going to be quite a success. We have had so many inquiries regarding it that a reporter saw Secretary Heimstreet and obtained the following items:

The fair offers one hundred dollars in cash for the first prize, fifty for the second and thirty-five for the third prize. Contesting bands must play at the fair for two days. In giving the prizes the idea is to give the prizes for the best band, all points considered. Good playing, marching, dress and general appearance will be considered. The judging will be done by judges strangers to all. Each band must sign papers before competing that they have none but their own members who have been members for at least three months before the fair and give a list of their members. In addition to these cash prizes an elegant drum major's baton will be given, also a fine snare drum, a pair of drum sticks, a gold watch and gold medal. All of these are of the best quality and may be seen at Burnham & Co's. jewelry store at any time.

The question now is who is going to get the prize as the most popular farmer and the most popular school teacher, and what boy and girl will get a nice watch for nothing? All teachers in Rock county who teach in primary departments of schools can obtain complimentary tickets to the fair free by calling at Secretary Heimstreet's office, and all children can get free tickets from their teacher.

### BRIEF BITS OF HUMOR.

Too Modest.

Jack Ford—Did you read Dixon's letters to the girl who sued him for breach of promise? He said: "Never, never can I express in weak, paltry words all my love for you, my beautiful darling!" Tom De Witt—Well, the jury thought he expressed twenty-five thousand dollars' worth, anyway.—N. Y. World.

### A Questionable Statement.

"I have sometimes thought," began Mr. Porridge, whereat Miss Rashly gave an exclamation of amazement, and then apologetically remarked:

"It may be! It may be! Of course, I have no knowledge of what you may have done before I became acquainted with you."—Richmond Dispatch.

### His Wisdom.

Jack—I wish I were able to go out of town for the summer.

Tom—Aren't you? It doesn't cost much.

## CASWELL MEN WON IN LOCAL CAUCUSES

### NO OPPOSITION EXCEPT IN THE THIRD WARD.

Janesville Delegation Will Go to the County Convention to Work for the Jefferson County Ex-Congressman—How the Meetings Last Night Were Organized.

Janesville delegates will be for Caswell with one or two exceptions. In the county there is a strong feeling for Monahan, of Darlington, but last night's caucuses in this city were for Caswell without the least opposition except in the Third ward. That delegation is badly split. The delegates will represent Janesville in the county convention tomorrow to appoint delegates to the state and the congressional conventions.

Republican electors of the First ward met at the west side fire station and organized by the election of I. A. Whiffin as chairman and C. E. Bowles, secretary.

Delegates were chosen as follows: Walter Rice, D. H. Billings, C. E. Bowles, Sutton Norris, James Shearer, J. W. Carpenter, D. Conger.

The republicans of the Second ward met at the east side fire station. S. C. Burnham was chosen chairman and M. P. Richardson, secretary. These delegates were named: E. M. Hardy, C. D. Child, C. H. Kneek, E. H. Pelton and John Stanton.

The Third ward caucus was held at the court house. L. H. Becker was chosen chairman, and Ed. F. Carpenter, secretary. An effort to elect Caswell delegates failed, and these men were named:

James A. Fathers, George J. Davis, F. S. Winslow, S. B. Kenyon, D. W. Watt, J. L. Bear, George Hanthorn.

Fourth ward republicans met at the city hall. A. H. Sheldon was chosen chairman and Charles W. Blay, secretary. Caswell delegates were elected as follows: W. G. Palmer, A. G. Anderson, E. J. Green, Charles W. Blay, J. B. Green.

Fifth ward republicans met at George H. Kastner's office. J. B. Hume was chosen chairman and C. E. Church, secretary. These delegates were chosen, E. O. Kimberley, Charles E. Church and Orville Morse.

In all but the Third ward the delegates are understood to be for Caswell.

### Far From the Madding Crowd.

This what many a nervous sufferer wishes himself every day. But there will soon be no necessity to forsake the busy—albeit somewhat noisy—scenes of metropolitan life, if the nervous invalid will begin, and persist in using Dr. Cassell's Food and Bitters, which will speedily bring relief to a weak and overstrung nervous system.

Day by day the body acquires vigor through the influence of this reliable tonic, and in the vitality which it diffuses through the system the nerves conspicuously share. Sleep, appetite, digestion—all these are promoted by this popular invigorant, and if they are, who can doubt that the acquisition of health and nerve quietude will be speedy and complete? Constipation, biliousness, malaria, nausea, sea sickness and cramps in the stomach yield to this remedy.

## BULLET PROOF COAT SEEMS A SUCCESS

LATEST INVENTION FOR DEFENSIVE WARFARE.

At a Test Recently Given the Inventor Wore the Coat, Allowing the Soldiers to Fire at Him—New Army Rifles Now Needed.

ERR DOWE'S new bullet-proof coat is exciting the keenest interest among European governments. It threatens to revolutionize the science of warfare, and as preparation for war is the chief concern of many European governments, the importance for them of the invention can not be exaggerated. Several tests have been made and they have established the fact that the coat renders the human body invulnerable to the deadliest of modern small arms. A test of the coat was made recently at the Alhambra Music hall, in London. The inventor wore the garment himself and was fired at by Capt. Martin of the British army with a Lee-Mitford rifle. A bullet from this is capable of piercing the bodies of five men at a distance of a thousand yards.

Two shots were fired. Capt. Martin aiming rather low. Not only was the coat not pierced, but Dowe hardly appeared to be shaken. He stated afterwards that the shock caused him no pain.

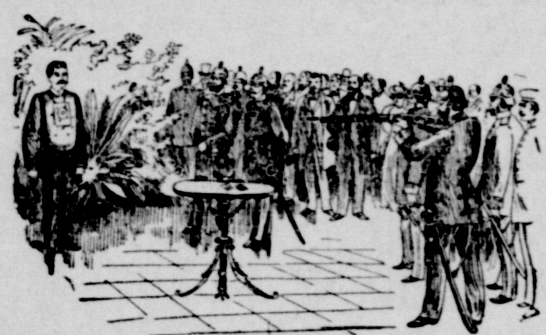

This settles a very important point in connection with the coat. It was at first predicted that even if it resisted penetration the tremendous impact of a bullet from a modern rifle would stun the wearer or even shake him to death. It is still difficult to understand how a man can stand upright before a bullet which would pierce five bodies in ordinary clothes. The coat must not only resist penetration, but destroy the impact.

The coat was next suspended against a sheet of plate glass and ten shots were fired at it. The glass was uninjured. The bullets were flattened into the shape of mushrooms. The test was held privately for the military authorities.

A previous test was made in Berlin by the war department. A good marksman fired at a horse having the cloth round its body. A plaster of paris bust was also placed in the coat and fired at. Finally it was tried on Dowe himself. The results justified the inventor's claims, as they have in other tests.

The cuirass employed at this test weighed sixteen pounds, but the in-

ventor promises to reduce it eventually to half that weight. Very little is known yet of the composition of the coat. Dowe will only explain its manufacture to the military authorities. It is of felt and in its present form is about two inches thick. The coat is, of course, extremely cumbersome, but its adoption appears to be inevitable. An army supplied with it would be able to destroy, with little loss on its own side, an army of soldiers not having the coat. It is easy to imagine some of the radical changes in warfare which the bulletproof coat will bring about. Fighting will, in many ways, resume its mediaeval character, when men encased in steel hacked at one another with weapons of enormous weight and size. Huge axes and other weighty implements will possibly replace the sword and bayonet in the soldiers' hands. Mechanical ingenuity having advanced so much since the middle ages, the new weapons will, perhaps, resemble surgical instruments. It will be necessary to seek out the felt-encased man's weakest point and attack him there. A combat between two men attired in this way will resemble a struggle between two oysters to get one another open. The most useful firearms will then be the light, quick-firing cannon, for a shot from one of these, even if it does not penetrate the coat, will surely disable the wearer. The bullets of all the new army rifles are extremely small, and they apparently are destined to become useless.

### Eye Treatment in Nervous Diseases.

There have been of late many suggestions as to the probability that diseases of the eyes have much to do with many of the more common nervous affections. Among the symptoms of eye troubles are persistent headache and nausea, gastric irritation, vertigo, spinal pains and aches, chills, fever, loss of memory and the power of concentration, irritability of temper and distressing insomnia. All of these conditions vanished as soon as an experienced oculist got control of the case. There are many persons who go to any ordinary shop or to an optician and are, as they suppose, fitted to glasses. It is quite as likely that there is some organic trouble that only an experienced practitioner with all necessary apparatus can discover. While the ordinary optician is useful as far as he goes, neither he nor his patron is in the right when he tampers with the sense that is by most people prized above all others.

### ARAB SUPERSTITIONS.

Concerning Rumbling Sounds Heard Near the Red Sea.

A singular phenomenon occurs on the borders of the Red sea, at a place called Nakous, where intermittent underground sounds have been heard for unknown centuries. It is situated at about half a mile's distance from the shore, whence a long reach of sand ascends rapidly to a height of 300 feet. The reach is about 80 feet wide and resembles an amphitheater, being walled in by low rocks. The sounds coming up from the ground at this place, recur at intervals of about an hour. They at first resemble a low murmur, but ere long there is heard a loud knocking, somewhat like the strokes of a bell, and which, at the end of five minutes becomes so strong as to agitate the sand.

The explanation of this curious phenomenon given by the Arabs is that there is a convent under the ground here, and that these sounds are those of the bell which the monks ring for prayers. So they call it Nakous, which means a bell. The Arabs affirm that the noise so frightens their camels when they hear it as to render them furious. Philosophers attribute the sound to suppressed volcanic action—probably to the bubbling of gas or vapors underground.

### Tin for Filling Teeth.

A dental specialist has made a discovery that is likely to have a decided influence upon the future of dentistry. This practitioner declares that in ordinary cases tin is quite equal to gold for filling teeth. Chemically pure tin is run into a mold of proper shape, and when cold is cut by a lathe into very thin shavings. These are used in the same way as gold. They are said to be more adaptable and cohesive than gold, and while not as durable will answer every purpose. It is a well-understood fact that gold fillings really last but a few years. The tooth decays or breaks away around the metal, which must be taken out and the cavity reprepared. This is expensive, and while some of the present day dentists will adhere to the gold filling and high charges, there are others who will fall into the popular line and use tin and make out their bills accordingly.

### HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

Professor Birkho's, the German hair specialist, who has made a wonderful success of curing baldness and causing the hair to grow thick on heads of ladies and gentlemen, has a large business established in the Masonic Temple, Chicago, and with his assistants will give his attention to those who are in need of hair. The professor will examine your scalp free of charge, and should he find that the follicles are not destroyed or the pores of the scalp not closed, your case will be pronounced curable, but where the head is slick and shiny there is no cure. Call and see him or write him 1011 Masonic Temple, Chicago.

Hand this notice to any first class druggist and he will get the remedy for you at once, if he has not got it in stock.

### Heroic Doctors.

A German pathological journal records a recent experiment of Drs. Sawtschenko and Sabolotny which seems to border on the heroic. They vaccinated themselves with a preparation made from cultures of the cholera bacillus, and afterward swallowed virulent cholera germs with entire impunity. Then, with serum from their own blood, they inoculated guinea pigs, and found that those animals could thus be protected against cholera. Usually it is the guinea pig who has first to face the chances of life or death in experiments of that kind, but in this case the doctors were so sure that they were right that they shouldered the risk themselves.

### A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the readers. "For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and heave gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130½. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Pottsville, Pa., October 12, 1892.

Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. This great discovery by an eminent specialist in heart disease, contains neither opiates nor dangerous drugs.

#### MANY UNJUST CHARGES.

People generally are too ready to believe any charges of oppression or extortion which are made against rich capitalists, especially when they relate to their treatment of their employees. But it seems that no one could have read the original statement of the case of the Pullman company or the one now put forward over Mr. Pullman's name without being convinced of the injustice of many of the charges of this kind against him with which the newspapers have resounded. It certainly makes it clear that whether there was anything to arbitrate or not in his difference with his workmen, there was no time or place for arbitration when it was made the pretext of a boycott war against all the people dependent upon the transportation facilities of the country. It is to be remembered that when Mr. Pullman made this statement of his case he knew that all the facts in the Pullman matter would be brought to light by the investigation to be made by the commissioners to be appointed by President Cleveland. Hence it is not likely that he has made any statements in his last publication which he cannot prove. If so, there does not seem to be much warrant for the charge that he has been pursuing a policy of grinding oppression and extortion toward his employees and tenants. At any rate the exact facts will be brought to light by the commission.

#### NOT FOR ARBITRATION.

How false and hypocritical the pretext was that this boycott strike was undertaken to vindicate the principle of arbitration! That strike was itself in direct antagonism to the principle of arbitration and to all the considerations which make for arbitration. It was the insolent setting up of brute force above law and above the rights of the people. It was the dictatorial assumption of the right and power of a labor union in the exercise of its absolute will to disregard and trample upon the rights of millions of people in no-wise parties to the original dispute. To say that these people who struck down every pillar upon which the principle of arbitration rests were contending for that principle is to pollute, to blaspheme, to insult the very name of arbitration.

#### THE END.

Whether the boycott has been declared off or not matters little. For it has utterly collapsed, or exists only in the imaginations of the few dupes who are still clinging to the shipwreck of their lost cause. There is nothing surprising in the fact that a strike which was the most senseless and inexcusable in its origin and motives, as well as the most extensive in its proportions and the most

destructive to life and property during its progress, ever known in history, should have tended in the most complete and prodigious failure in the annals of such abnormal disturbances. For such an ending was the logical and inevitable outcome of a war in a free republic against every right which constitutions are framed and laws enacted to protect—of an attempt to establish the most arrogant despotism of brute force which ever reared its head in a civilized country since the bloody reign of the commune in Paris.

#### SICK CHINCH BUGS SET FREE.

Farmers South of this City Fight the Insect By Inoculation.

Farmers between here and Beloit who are seriously troubled with the chinch bug this season, are now trying the effects upon their unwelcome visitors, of the inoculated bugs from Kansas, which have been procured by I. V. Holmes. Some of these latter were turned loose in Mr. Baldwin's corn field Thursday and the result will be watched for with much interest.

If there are any farmers of this neighborhood whose fields are similarly afflicted and who are anxious to apply this remedy, Mr. Holmes will be glad to assist them in securing a supply of the inoculated bug and acquaint them with the method of application.

#### PHILLIPS' CASE OUT OF COURT.

Old Matter at Last Disposed Of By Judge Bennett

An old case was dismissed from the calendar in the circuit court today, being that of Alfred J. Phillips against Clara L. Phillips. Action was brought in 1891 to declare a deed null and void, the case being continued from term to term until it was called up this morning on the regular calendar. The defendant was present with witnesses, ready for trial. The plaintiff was not ready, and on motion of defendant's attorney, the case was dismissed with costs to plaintiff.

#### PROUD OF THE FIRE DEPARTMENT

Adjuster J. J. Byrne Well Satisfied With the Bower City's Service.

J. J. Byrne, insurance adjuster for the Traders' Insurance Company, was in the city today adjusting the fire loss at the Janesville Barb Wire Co. Mr. Byrne, after carefully surveying the ruins of the plant, remarked to a local agent that Janesville had reason to be proud of her fire department and that in his opinion no department in the country could have handled the fire to better advantage.

## MONEY FOR THE MEN WHO DRIVE DEVILS

### LIBERAL CASH RECEIPTS OF THE TENT MEETINGS.

Cures Grow in Number and the Sermons in Vehemence—Mail Carriers Enjoy Their Summer Vacation—Row-Boat Trip to Rock Island—Brief Local News.

RUNNING a tent meeting isn't so thankless a task after all. Ever since Miss Obrist was "raised" the audiences at the Wall Street meeting have been large and the contributions liberal. Moreover, each person out of whom a devil is cast is taxed \$25 or \$35 according to the size of the devil. One woman who didn't have the money was told that she must go and borrow it. The number of cures keeps growing larger, and the evening sermons more emphatic. People on the Second and Third ward hill can hear the discourse readily on still nights. Strangers in town at first imagine that somebody is holding an auction.

Forty-nine cents. Somehow the price doesn't seem to match our perfect fitting unlaundered shirts. Most people would probably say they must mean 99 cents. It can't be 49 cents for such a shirt, yet 49 cents is right. Pure linen bosom, good strong muslin, reinforced at front and back. If you are hard to please try one. You never saw a better shirt for 75 cents. Your money back if you are not perfectly satisfied. Don't cost much to experiment, does it? T. J. Ziegler.

MISS CORNELIUS gives special rates to all pupils in voice culture and piano who wish to take lessons in classes of four. This is a system which is employed by all leading American and European conservatories. It furnishes an excellent opportunity to those who do not feel disposed to avail themselves of the private lessons. For further information call at Miss Cornelius' studio, Court Street church block, up stairs.

THE good old-fashioned system of square dealing and truthful representation keeps color and wears well. It is the system we always practiced, practice now, and always will practice, world without end, amen. We are closing out our stock of buggies. Janesville Carriage Works.

GEORGE K. COLLING & Co. will be awarded the contract for building the proposed new addition on the rear of Christ Episcopal church. The addition will be used for a Sunday school room and other purposes. The expense of the contemplated improvements will be about \$3,000.

THE evidence of stern facts is conclusive. Every dealer claims lowest prices. There is a reason for everything. Ask for the reason. We claim lowest prices and here is our reason. We are connected with the largest manufacturers of clothing in the world. Our goods are furnished

us at actual manufacturer's cost which is at least 15 to 20 per cent. less than the other fellows can get them. This helps us to help you. No other way. Our suits for men in sacks and cutaways which we are selling at \$7.00 are just what the other small clothing stores charge you \$12.00 to \$15.00 for or else you don't get as good as ours. Why not save the difference? Any goods stamped with our manufacturer's label "Henry W. King & Co." we will warrant to wear and to have perfect and stylish workmanship. T. J. Ziegler.

THERE will be a lawn social at the home of Mrs. Weaver, 159 North Jackson street, Wednesday evening, July 18, under the auspices of the Woman's Foreign Missionary society of the First Methodist church. Ice cream and cake will be served and a good time is expected.

## FIELD OF 160 HERE FOR THE JULY RACES

### FAST TIME AND HARD FIGHTING CERTAIN.

Horsemen Pleased at the Treatment They Get in Janesville and Bound to Come Here as Often as Possible—Classes Will be Well Filled Next Week.

There will be upwards of 160 entries and very nearly 200 hundred horses on the grounds.

This is the promise made regarding Janesville's July meeting.

"Janesville never saw as well-filled classes as will come out on the track next week," said Secretary H. D. McKinney enthusiastically.

On every side horsemen are happy over the prospect. Good stables are being put on the lists and crack flyers will be numerous. Owners say they would rather "send" their horses over the Janesville track than any track in the west, and they are all coming.

John C. Chadwick shipped his stable to Waukesha this morning, his horses being entered in the races that open there this afternoon. Mr. Chadwick has had very good luck so far this season, and as he expressed it, his horses have "gone better than he thought they would."

"I won three heats in the free-for-all with Kate Phallamont at Milwaukee," said Mr. Chadwick, "but I did not get credit for them. Everyone thought I ought to have had the purse."

Pretty little Ethel A. John Conley's Adrian Wilkes colt, ran against her first snag at Saginaw, Michigan, yesterday. Janesville people have not forgotten the trim little mare who turned the Janesville track so easily in 2:17. Ethel has won every four-year-old and under race she went into so far but at Saginaw she had to compete with Rubenstein, Clay Honitas and Barondale, the former winning the race in the phenomenal time of 2:10. This was too fast a clip for Conley's colt who got behind the flag in the first heat.

Entries for the Janesville meeting next week are coming in fast and a large and spirited meeting will be the result. The horses have "gotten on their feet" now and are ready to race for peanuts, purses or pumpkins.

### WHY HE FIGHTS MILTON COLLEGE

Superintendent Wells Pursues a Peculiar Course Regarding Rock County School.

State Superintendent Wells persists in his decision to exclude Milton College from the list of those colleges, the graduates of which have their diplomas countersigned by the state superintendent, giving the power of state certificates to those holding them. Superintendent Wells has done some very small things in his official capacity but this is the least of them all.

Milton college has sent out a greater number of good teachers in the last thirty years than any other institution in the state, not excepting the state university. Two presidents of normal schools in the state, Harvey, of Milwaukee, and Salisbury, of Whitewater, are graduates of Milton college. Thayer, former state superintendent, and Rockwood, both successful teachers in normal schools in this state, claim Milton as their alma mater. And the list might be extended to a large number of high school teachers who have done excellent service. But all of this counts for naught with the autocrat of the state educational department. He has given his decision and so it must stand. But there is a redress, and the people will accept it on the first Tuesday in November.—Elkhorn Independent.

### HOLBROOK NAMED AS ARCHITECT

High School Plans to Be Furnished By the Milwaukee Man.

W. A. Holbrook of Milwaukee, was elected architect to prepare plans and specifications for the new high school building in Janesville. This action was arrived at after a long meeting of the board held last evening, and the choice was made unanimous. The building will be of the Columbian style of architecture and the details of the plan will be under the supervision of a special committee consisting of Commissioners McLean, Clemens and Cunningham. Mr. Holbrook is an architect of wide reputation. He built the new Sentinel block in Milwaukee and many other handsome blocks.

Commissioners Goldin, Anderson and Weisend will have charge of the heating and ventilating plans. "Red pressed brick will be used in the construction of the building," said one of the commissioners last evening. "The plan will be considerably different from the drawing submitted by Mr. Holbrook, and will be under the supervision of the special committee. The site will undoubtedly be the Halverson property, as in my opinion that has already been determined."

### The Big Shoe Stock Arrived.

Commencing tomorrow morning we propose to sell the majority of the shoes sold in Janesville during the remainder of July and all of August. We just received \$10,000 worth of as fine shoes as any house or any man in Janesville ever saw. A nicer stock cannot be found. We actually bought the stock for 55 cents on the dollar, or 45 cents on every dollar less than any shoe factory sells goods. Any well regulated merchant tries to make a profit on goods, we propose to do the same and still save you 50 cents on every dollar you spend with us. These handsome shoes will be ready for you tomorrow morning. Come and see them. Brown Bros. & Lincoln.

### T. J. ZIEGLER GETS HIS MONEY BACK

Paid the Gazette a Handsome Sum But Is Glad He Did.

May 1st last T. J. Ziegler, at the solicitation of the Gazette Printing Company entered into one of the largest advertising contracts with the Gazette ever made by a concern in a city the size of Janesville. At first Mr. Ziegler was doubtful as to the advisability of it, but finally decided to accept the venture. Two months have passed since the contract was signed, and every merchant and every citizen in the city knows the big business Ziegler has done. Today Mr. Ziegler's mind is entirely changed. Advertising has done it, as the following letter will prove:

MINNEAPOLIS, MINN., JULY 14, 1894. DEAR ED.—I have just received a letter from Mr. Woodruff and he thinks we had better come in very soon and look at their fall stuff; so have concluded to leave here Tuesday night and want you to go in with me; so meet me at the train Wednesday morning. Received your reports all right as well as cigars. Think your June business is OUT OF SIGHT! It is certainly remarkable, as I don't think there is a store in the country that has done as well. Hoping to see you soon I am Yours truly, JEFF. Advertising in The Gazette has done this for Mr. Ziegler. It will do the same for you.

### CONGER AND KIMBERLEY MAY GO

Delegates to the State Conventions Will Be Named Tomorrow.

All three of the Rock county assembly districts will send Caswell delegates to the state convention, it is believed. Many of the towns have returned Caswell delegates and others sent men who have no instructions. The state convention is held in Milwaukee next Wednesday and delegates to that convention will be named by Rock county republicans tomorrow afternoon. There is some strife among ambitious partisans to be elected delegates to the convention. David Conger and E. O. Kimberley are looking for credentials which will entitle them to seats. Chairman W. T. Vankirk of the county committee and James A. Fathers would not object to being delegates, but they do not believe in being instructed, and favor leaving the delegation to the state convention free to act for the best interests of the party. However, the results of the city caucuses last evening would indicate that whoever is elected will be instructed to vote for L. B. Caswell for governor, as the majority of the caucus delegates were elected on tickets implying such instructions. There is not a republican in Rock county who would object to Mr. Caswell should he be nominated, the only objection being that it is questionable politics to break into a state convention with county delegations instructed.

### THIS WILL INTEREST YOU.

A Catarrh Cure Within the Reach of All. Since locating here Dr. H. A. McChesney, the noted specialist has effected more cures of catarrh than probably ever was known to have been accomplished in the same space of time. Being a new man and a new physician in the locality, all the old chronic cases of years and years standing went to him; all the cases that almost every physician in the land had taken hold of and failed, but Dr. McChesney accepted them all. One case in particular is that of O. D. Lincoln, of the boot and shoe firm of Brown Bros. & Lincoln, and who was for nine years traveling salesman for the great shoe house of M. D. Wells & Co. Mr. Lincoln had one of the most complicated cases of catarrh of the head ever known. He had treated for it constantly, and spent hundreds of dollars without relief. When Dr. McChesney located here, Mr. Lincoln concluded to put his case in the doctor's care. He did so and today is entirely free from catarrh. Mr. Lincoln can be found at Brown Bros. & Lincoln's all the time. He will, with pleasure, vouch for the above statements, as he is one of the best pleased men we ever saw. Hundreds of just such cases can be cited. Other testimonials will be given from day to day. Dr. H. A. McChesney can always be found at the McChesney sanitarium.

### JOINED IN MATRIMONIAL BOND

Moesser-Stencken. The announcement of the marriage of Mary A. Moesser to Miss Erna A. Stencken, of Milwaukee, July 10, will be a pleasant surprise to the groom's many friends in Janesville and Mr. Moesser and his bride will be cordially welcomed in Janesville. Mr. Moesser is one of Janesville's enterprising young business men, being now engaged in the real estate and insurance business, the junior member of the firm of Pfennig & Moesser. His bride is the daughter of Rev. C. Steinicken of Milwaukee, and a niece of Rev. G. Lorch of Pittsburgh, Pennsylvania, and is a young lady who will bring sunshine into her new home.

### THE STRIKE OVER, FRUIT MOVING

The First Watermelons of the Season Will Be Here in the Morning.

Business is commencing again. During the strike we were unable to supply our customers with fruit, as they know, and the strike lasted so long that it cut away into the fruit season, thus shortening it. Tomorrow morning we will receive a car load of fine watermelons. They are the first, and we guarantee them to be the best. Probably we will not be able to get another car, so it would be advisable for all to purchase now. SPIVAK & GOLDFARB, 6 South Main Street.

## DENTISTS ARE HERE READY FOR WORK

### THE TWENTY-FOURTH ANNUAL CONVENTION OPENED.

Many Subjects to Be Operated Upon Before the Meeting Ends—There Is No Time Wasted When Wisconsin Tooth Sharps Get Their Heads Together.

Wisconsin dentists began their work in Janesville this afternoon. The twenty-fourth annual meeting of the society was called to order in the Caladonia rooms at 2:30 by President W. C. Wendel, of Milwaukee. The Wisconsin dental fraternity do not come together for fun. It is work—hard work and lots of it—when they gather. Instead of a convention in the ordinary sense of the word, the members have made their annual meetings more like visits to one another's operating rooms. Methods are discussed and new systems of treatment outlined. Several very interesting cases will be brought before the Janesville meeting ends, and operations will be performed by the most skillful men in the west. The programme for to-morrow is as follows:

WEDNESDAY MORNING.

### Do You Know Sanspareil?

Read the following and you will understand more about it.  
New York City, Oct. 5, 1879.  
To Whom It May Concern:  
After forty years of successful practice in this city and realizing that my work is done, I want to make the following statement concerning the secret of my success. Many who read this statement will remember that I frequently said that I would give \$100 for any case of rheumatism that I could not cure I was equally successful in treating inflammation and diphtheria. These cures were always effected by the use of a liniment that I prepared myself. I was offered at one time \$7,000 for the formula. Its absorbing qualities surpass anything I have ever seen and it will cure rheumatism, neuralgia, tumors, inflammation of various kinds, sprains and bruises on both man and beast like magic. I shall bequeath it with a small legacy to my grandson, Wilbur F. Regus, and hope that he will some day put it on the market. This is Sanspareil.

## RICH AND RARE GIRLS STILL TO BE WED

THE BIGGEST FINANCIAL PLUMS  
IN THE LOTTERY.

Nine Pretty American Heiresses—All  
Are Heart Whole and None Are Seek-  
ing Titles—Fair and Free Are  
They.

BETWEEN THE Atlantic and Pacific coasts there are at least nine young ladies who may be regarded as the primest matrimonial catches in this or any other country—the belle ideals of the whole world.

These young ladies, to go over them hastily, are Miss Gertrude Vanderbilt, her cousin, Miss Sloane, Misses Alta and Edith Rockefeller, Miss Sylvia Green, Miss Virginia Fair, Miss Maude Alice Burke, Miss Julia Dent Grant and Miss Helen Post. Of these New York claims Miss Green, Miss Vanderbilt, Miss Sloane and the Misses Rockefeller during the time they are not in Cleveland. Chicago divides Miss Grant's time with New York, while California claims both Miss Burke and Miss Fair, while the Bridge city holds possession of Miss Post.

So the distribution across the country is not an unequal one.

Let no one suppose that the possession of millions makes all women alike, and levels them or raises them to the rank of society puppets, mere butterflies to feed upon the sweets of life and die when day is done, without having accomplished anything more than being beautiful. Far is this from being the case with these nine rich girls, who are all as different as possible, and who all are possessed of very distinct characteristics.

Miss Vanderbilt is considered the richest of the lot. Perhaps she is, and

perhaps she is not. When fortunes reach the hundred million mark it is hard to tell which is the greatest, on account of the daily fluctuations of the great markets which these fortunes control. Miss Vanderbilt will have many of these millions for her own some day.

The resemblance of Miss Gertrude to her father, Cornelius Vanderbilt, is very marked. She has his low forehead, his benevolent expression, and the same low, half shy manner of talking. She has gone out little. Her friends are Miss Gerry and Miss Paulina Whitney. Her debut in society is a thing of the future. She will probably be presented this summer at Newport, but as she is not quite 18 this may be postponed until the fall, when the grand city house will have its ball room thrown open.

Miss Vanderbilt is a quiet girl with no fads at all.

Miss Emily Vanderbilt Sloane, a cousin of Miss Gertrude, is another very rich young woman. She has an older sister in society, but this sister, it is said, has already mortgaged her affections, leaving the debutante, Miss Emily, with an open field.

The two girls that come next on the list of belle ideal catches are the Misses Alta and Edith Rockefeller. These are the daughters of John D. Rockefeller and the heiress to—Well! Their father swore upon the witness stand that he could not tell within twelve millions what his real wealth might be. So form an estimate yourself.

These young ladies are the best in the world, so far as real, true worth goes. They are highly accomplished. Miss Alta, the eldest, plays the piano. Miss Edith is an expert on the violin. Their father plays the second violin in this home orchestra, while their mother takes their respective parts. Their home life is ideal.

Miss Alta is about 25 years old and Miss Edith is a little younger, but neither of these girls have ever entered society, and neither has even had a Paris dress. A home dressmaker makes their clothes, and one maid suffices to preside over their toilets. Their time is devoted to visiting the sick at St. Luke's hospital, to study, to music and to outdoor sports. Both of these girls will probably marry ministers or missionaries.

In the same category as these girls—too shy for society—is Miss Sylvia Howland Green, the only daughter of Hettie Green, and the heiress of \$100,000,000, maybe more. Miss Green has \$3,000,000 left her by her grandmother, the interest of which she has never touched, and she gets, besides, a large amount from certain investments made for her long ago by her father, when the latter was the rich member of the family.

Her friends say that Miss Green will marry; and that the man will be any one who will be kind to her and will take the trouble to penetrate the reserve which is wrapped about her and to overcome the shyness which she can not control. She is said to be like her father, and that she will make a good wife and a pleasant home, with

her straightforward, honest nature and her millions, there can be no doubt.

Very different from these are the two California heiresses, Miss Virginia Fair and Miss Maude Alice Burke. Both are beautiful, dashing girls. Both revel in society. Both are "showy" girls, and both have brilliant, effervescent manner—sometimes criticised in New York—but characteristic of the fine open air life they have led.

Miss Burke is the prettier of the two. She is a blonde, a red blonde,

VIRGINIA FAIR.

with pearly teeth, peaches and cream complexion and eyes usually called "hazel." She laughs a great deal; and is the idol of her uncle, old Gen. Horace W. Carpenter, who made his millions on the Oakland Sea Front. Miss Burke has no fortune herself, but she has always lived with her uncle—since the marriage of her mother the second time—and is his acknowledged heiress to \$60,000,000.

Miss Fair has a sister, Mrs. Hermann Oelrich of New York, with whom she lives part of the year, and from whose Fifth avenue mansion she was introduced into New York society. But she always claims California as her real home. Miss Fair is less beautiful than her sister, having less regular features. Her hair, eyes, and eyelashes are black and as beautifully regular as those of a madonna, but her nose is retroussé—vulgarily styled a "pug"—and although a very pretty girl, she can not lay claim to the great classic beauty which made Miss Tessie Fair, now Mrs. Oelrichs, so very celebrated. Miss Fair lives a life of great gaiety. Her father, ex-Senator Fair, has about \$50,000,000 invested in coast line, but just how much Miss Virginia will get is not known. She has frequently said that she must marry an intelligent man—one of whom she would not tire, and that she would care little for money, so long as he were agreeable to her personally.

Brooklyn's greatest heiress is Miss Helen Post, the daughter of Stephen Post, and the owner of \$1,000,000 in her own name, besides an income for life of \$10,000 a year. Miss Post is a debutante, with many attractions to recommend her. She is a blonde, is very pretty and an expert in outdoor sports. She is a leader in the Algonquin Riding club and an active member of the Civitas club, an organization to purify the government of Brooklyn. Miss Post is a little inclined to be strongminded. She is a typical intellectual society woman of the century, or as the next century woman will be, and combines the qualities of knowing how to dance and how to think in a most remarkable and charming way. Miss Post's matrimonial choice will be a Brooklyn man, so she says.

None of these rich girls have any conspicuous faults—unpleasant fads

GERTRUDE VANDERBILT.

or unreasonable peculiarities. And all are so lovely in mind, as well as desirable in person, that it may be said that the men who capture these nine virgins will have done wisely—not counting the hundred millions they will get.

Four times as many Irishmen reside in this country as Englishmen.

Scientists are of the opinion that some icebergs last for 200 years.

The deepest gold mines in Australia are the Magdala, at Stawell, 2,400 feet, and Lansell's, at Sandhurst, 2,640.

The birth rate of the United States diminished from 1880 to 1890 from 30.95 per 1,000 population to 26.68.

There are 280 iron and steel manufacturing establishments in Pennsylvania, with an invested capital of over \$200,000,000.

The Baltimore Sun printed this advertisement lately: "For sale—Cigarette and candy store; good stand; opposite school and church."

It is claimed that better metal ships can be built in San Francisco than in the East, because better wood for the frame work can be had there.

Georgia has long been noted for its queer happenings. One of the queerest is that about one Will Roper, who, after being whipped, shot and thrown into a sixty-foot well, lived for a week by chewing roots, and yet, when found, was "nearly dead."

In operating the Connecticut hydraulic gallows the condemned man by standing on the drop starts a flow of water, and the increasing weight specially releases the spring. This grim application of the slot principle has given rise to the question whether the prisoner dies by the law or by suicide.

A gay party of young people were driving home from church near Vanceburg, Ky. They had to pass a railroad track, and a train was coming. One of the girls suggested that they should see how long they could stay on the track without getting hit. They did. One of their number was struck and nearly killed.

A newly-elected justice of the peace thus charged the jury in his first case: "If you believe what the counsel for the plaintiff has told you, your verdict will be for the plaintiff; but if, on the other hand, you believe what the defendant's counsel has told you, you will give a verdict for the defendant. But if you are like me, and don't believe what either of them said, I don't know what you will do." The jury disagreed.

## CHARACTERISTICS.

The man who accepted \$5,000 to have physicians bore a hole through him as an experiment is dead.

Rev. Isaac J. Lansing, a Boston Congregationalist pastor, asserted in his sermon Sunday that: "Boston, the city highest in culture, is the lowest in morality."

Mary Ellen Waymore, aged eleven years, weighs thirty-two pounds. She lives with her parents in Wagner's

falls, Erie county, Pa., and is bright and intelligent.

A New Yorker who is an important stockholder in a manufacturing concern up in Massachusetts subscribed for one hundred tickets to a concert in aid of his own striking workmen. "I hope they can keep alive and maintain the strike," said he, "for we can't sell their product if they go to work."

"Gold is a precious metal," explained the professor, "because of its scarcity." "All the gold now in use in the world," he added, referring to a memorandum on the fly leaf of the text book he was using, "according to careful and trustworthy estimates, could be put within the walls of a room twenty-four feet square." "So could all the silver in the world," suggested a little red headed boy in the class, "if you make the ceiling of the room high enough."

Edwin Forrest had a reputation as a great stickler for what he thought correct. He used to get so angry with his stage people sometimes that their life was a round of sorrow. A certain man in his company had a bad walk. Forrest one day called him aside and began to reason with him with foam on his lips. "This is the way you should come on," he said. "Notice this." The "hamfatter" watched the noble stride of the tragedian with mingled awe and joy. "Ah, sir, if I could walk like that do you suppose I would be earning \$8 a week?" "And you get \$8 a week?" "Yes." "Only eight?" "Yes." "My boy, come on as you please."

## FEMININITIES.

There is an alarming tendency in women to look for something to reform in every man who likes them.

Statistics show that only 55 per cent of the blondes marry. This may put a new complexion on the hair bleaching business.

He, bitterly—Pshaw! All women are alike! She—Then why in the world do you spend so much time trying to find the one you want to marry.

A noted physician says that the most prolific cause of women's nervous diseases, hysteria, spinal diseases and sick headaches is found in high-heeled boots.

Miss Baker, professor of Greek and

termine what is right. Inquiring Son—And what is instinct? Fond Parent—Instinct is that which tells a woman she is right whether she is or not.

Hospital nurses and their friends will be interested in some statistics which have been compiled by Professor Tyndall. According to these, hospital nurses only attain, on an average, the age of 25 years, while the non-nursing women reach the quite mature age of 58.

"That was an awfully close call Jenkins had when his house was burning." "How was it?" "He couldn't be persuaded to leave the building." "How did they manage?" "Some cool-headed person thought to send a man in with a lot of unpaid bills."

## The \$10,000 Stock Is Here.

Never in the history of Janesville will such High Grade shoes be offered for as little money. The very shoes that we offer you for from \$1 up; cannot possibly be bought in any other house in the city for less than double.

We bought for 55 cents on the dollar. We will let our customers have them likewise. We don't care to make a cent during July and August. The goods just received are paid for, spot cash did it. We have money enough on hand to buy another \$10,000 stock or two, possibly three. Listen to those poor demented, would be competitors howl. It hurts them. They can't sell their stuff for twice what it cost them while we are here

## We are the Public's Benefactors in the Shoe Business.

We have the majority of the trade. How quick we got it. Probably our sleepy competitors can tell. The 83 cases arrived this morning, all full cases. They are being unpacked, the goods marked and placed in readiness for your inspection.

We actually guarantee to sell you a shoe for \$1 that is positively not sold for less than \$2 at any other store in the city.
